Re: GULF & WESTERN MANUFACTURING COMPANY
EAGLE SIGNAL CONTROLS DIVISION
EPA ID #IAD051001337
REQUEST FOR CHANGE IN STATUS

Dear Mr. Campbell:

The Eagle Signal Controls Division of Gulf & Western Manufacturing Company is presently on Interim Status as a Hazardous Waste Storage Facility. The facility qualifies as a small quantity generator. Gulf & Western is therefore requesting that the status of the facility be changed from hazardous waste storage facility to small quantity generator.

The facility was closed as described in the July 27, 1984 letter from Eder Associates, Consulting Engineers P.C. to Ms. Barbara Cook of your office.

It is our understanding that this change in status will be handled by the Iowa Department of Water, Air and Waste Management and that we need not contact the United States Environmental Protection Agency. Please provide our office with written acknowledgment of this request.

If there are any questions, please contact our office. Please note that this letter supercedes our letter dated August 6, 1984 to Ms. Barbara Cook of your office.

Very truly yours,

GULF & WESTERN MANUFACTURING COMPANY
